

Walk-In COVID-19 Vaccine Clinic on Saturday, May 8th 2021 at Johnson Creek Premium Outlet Mall

Jefferson County Health Department (JCHD) will be holding a walk-in clinic for COVID-19 vaccination on Saturday, May 8th 2021, from 12:00PM to 4:00PM at the Johnson Creek Premium Outlet Mall. Anyone over the age of 18 is eligible, and ID is not required.

JCHD is excited to offer this clinic for those who may not be able to get vaccinated on a weekday, those who might have difficulty making an appointment online, or anyone else who simply wants to walk in and get their COVID-19 vaccine. We expect to have the Moderna and Johnson & Johnson COVID-19 vaccines, and may also have the Pfizer COVID-19 vaccine available. You must be 18 years of age to receive the Moderna and Johnson & Johnson COVID-19 vaccines. Individuals who are 16 or 17 years of age should [register](#) for an upcoming clinic where we will have the Pfizer vaccine available.

Our walk-in clinic will not require appointments, and will be located at the Johnson Creek Premium Outlet Mall at 575 West Linmar Lane, Suite A40, Johnson Creek 53038, right next door to the Nike Outlet Store.

Vaccination is quick (about 30-40 minutes) and safe. You can expect some fatigue, soreness and fever, but over-the-counter medication will help with those common effects of your immune system doing its work. It is vital that Jefferson County residents continue our success in getting vaccinated for COVID-19 and helping to protect ourselves, our families and communities. COVID-19 vaccines are proven to be safe and highly effective at preventing serious illness from COVID-19.
